Millie, Ace & Queen,**
and **Ella**

What's Happening?!

May 19 Kitten Shower

12-4pm, at Paws. More help is needed to show cats, keep an eye on kittens to make sure they are happy, and talk with potential adopters. Please help out if you can! We had dozens of adopters come in last year and got many donations! An event flyer and kitten wishlist is available if you can put one up somewhere!

June 2 Rabies Clinic 12-2pm at Norwalk Animal Control.

June 2 Stamford Yard Sale 11-3 Union Memorial Church.

June 9 Pride in the Park day, probably no animals to bring but volunteers needed to staff our table, sell items and talk to people interested in animals.

Please email if you can help out with an event!

lisad@pawsct.org

Adopted: Ace & Queen!

Ace was being shy and didn't want his photo taken but take our word for it - they went home together!

Adopted: Ella (again)!

Ella was adopted about a month ago but returned because she was too active and playful. This family decided she was just purrfect and took her home!

Adopted: Bongo!

The Makeover Elves Came to C3!

The Bottle Babies are 3 weeks old!

Kittens Need Formula and Food!

At 3 weeks of age my little monsters are going through a lot of formula and starting to eat some canned kitten food too.

We could really use KMR (kitten milk replacer) powder, canned kitten food, and clay (non clumping) litter.

Other really helpful items include small tinfoil pans (for litter boxes), baby wipes, and pee pads.

All four babies are doing well. They came in 2 weeks ago today and are now just over 3 weeks old. They are all eating well, have started using the potty on their own and as you can see, are super cute :-)

Peapod (now Chelsea) Doing Great!

Is my forever home out there?

Thank you Kate for the cute photo of Zatz!
The 2 windows are by far the absolute BEST part of the makeover. Everyone loves the natural light and being able to see out!

Photos of Lucy in her home!

The more you talk to your cat, the more she will talk to you! If you chat with your cat they will increasingly chirrup and meow at you. Cats can make over 100 vocal sounds.

Congratulations to Animal Friendly Senator Duff!

PAWS was proud to host Annie Hornish of HSUS presenting an award to Senator Bob Duff!

Precious is doing great!

Diana fitting in well

“Her name now is Misty and she's doing very well adjusting. She is definitely a night owl - we can hear her running about during the evening. She has a favorite chair in our dining room, 2 litter boxes that she always finds her way to, and 2 kitty condos to climb on. So, basically Misty Mystical Rose aka Diana, is becoming a spoiled brat! Thanks for checking on her!”

Colorful Insight into Your Cat's Health

Introducing "**PrettyLitter**" - it contains absorbent crystals that change color when your cat urinates on them. Many illnesses will change the pH balance of your cat's urine, and this can tell whether things are normal, or if you should schedule a vet appointment. Cool!

Jack Fruit is a happy little guy! And likes to help in the bathroom ;-)

"Thank you so much for the beautiful addition to our family. We are dropping the "Fruit" but keeping the Jack. He is fitting in nicely and our other cat Ivan is quickly warming up. I'm sure they will be great friends soon. We love him a lot."

David and Tom Thumbs are doing well and becoming good friends!

Only 3 weeks late with this ;-)

Why don't cats play poker in the jungle?
Too many cheetahs :-D

Kevin & Tracey's two Paws Alum
Gracie and Ava
