Adopted: Tommy!

Tommy came to us as a stray and spent too long at Paws while he recovered from a shelter cold. He was adopted once and returned through no fault of his own. He is sure to be living the good life now with a whole family to provide for his every need!

“Just sending a quick update on our kitty, Mimi, aka Thread. She is great! We really lucked out with her. She is the sweetest and most affectionate cat that I've met. She likes to sit with me, close to me and constantly follows me around the apartment.”

Snowy and Bandit in their home

If you are wondering who Snowy and Bandit are you're not alone! A few weeks ago we were contacted about taking in supposedly Himalayan cats because their owner had passed away. We got photos and they looked like Persians to me. A few days later I got a call from a woman who had just lost a Persian cat and was looking to adopt another. I asked if she might consider taking two - and the answer was yes! They were at Paws less than 48 hours and we made \$200 :)

Remembering Julia who has crossed the Rainbow Bridge

“Dear P.A.W.S.

It was with a very heavy heart that sweet Julia went to kitty heaven yesterday. I wanted to let you all know because she was a staff and volunteer favorite at PAWS after being so lovingly cared for by you for three years.

She found her furrever home with me 2 1/2 years ago and she absolutely thrived. The first night after I brought her home, I woke up in the middle of the night and she was sound asleep on my chest. She continued to sleep next to my head every night. She was so loving and when I was feeling sad or anxious she would come up to me and drape herself over my arm or shoulder to comfort me.

Being a senior cat, I knew her time with me would be limited, but I wanted her final years to be her best years. And I know in my heart they were. I adopted “Stormy” who I renamed “Mimi” at the same time and she is an amazingly loving lap cat. Her play-biting has pretty much stopped... or at least I can tell when she’s had enough petting and I take my hand away :)

Julia had a tumor on her bladder which metastasized to her colon and lungs. She was never in pain, just discomfort and she let me know when she was ready to go.

I thank you all at PAWS for the great work you do and the joy you bring to us adopters as well as saving so many animals. Once I am over my grieving period with Julia, I plan to adopt a kitten or young cat to be a companion to Mimi (and me).”

On a happier note: Joshua “JJ” is doing great!

This little nugget has been with me almost 3 weeks now. He was found on the side of the road in Westport by a passer-by and the man called Paws. The conversation was memorable because he told me “the kitten has no teeth”. So I knew he would be a bottle baby under 3 weeks and of course we said Yes to taking him.

The no teeth part changed quickly! This little guy is now eating on his own but still loves to snuggle with people and even “nurse” on your shirt when he’s really happy. JJ will be ready for a home in another 3 weeks or so. Thank you Kevin for the adorable photo!
